10	131099003	Texas Health Harris Methodist Hospital - Dallas	Hospital	Private	A1	Improved Chronic Disease Management: Diabetes Care	11	25.58%	\$1,699,390.53	\$5,034,478.02	N				Provider requested to change valuation beyond the default valuation determined by measure bundle point value. Provider rationale for change does not adequately describe the rationale for the requested change. Provider should include in the "Provider Response" column greater detail on the primary justification for increased valuation. Provider should include comparative number (population size, baseline, cost) and any formula used if relevant to determine requested percentage changes. Decreasing valuation for a specific bundle because a provider is unlikely to meet the goal within the bundle is not an adequate rationale for valuation changes and is not in line with the goal of delivery system reform. Level of effort to measure and report an outcome is also not an adequate rationale for valuation changes.	Upon discussion with leadership, we will revert to the default valuation as HPSC suggests.	HPSC has updated the valuation to the default percentage based on the provider's response.
