

Anchor Update 3/10/17

Good Morning Region 10 Providers,

I have a few updates for you this morning.

April DY6 Reporting

- Attached please find the DY6 DSRIP Reporting FAQ document which addresses changes to the DSRIP reporting process for DY6 (e.g., SAR requirements, DY5 carryforward reporting for combined projects and projects discontinued in DY6, reporting templates, etc.). Questions regarding the April DY6 reporting process should be sent to the waiver mailbox at TXHealthcareTransformation@hhsc.state.tx.us.
- In preparation for April DY6 reporting, the RHP 10 Anchor Office sent out the semi-annual user/contact update file to help ensure providers have up-to-date access to the reporting system. Any updates to the file are due back to the RHP 10 mailbox (RHP_Region_10@jpshealth.org) on **Wednesday, March 22, 2017**. Additional instructions were provided in the April DY6 User Update email.
- Category 4 PPE reports will be sent to hospital providers at the end of March.
