# RHP PLAN TEMPLATES

---

# RHP Plan Templates

- Thank you for submitting your templates on time!
- If you have not already received feedback on your template you should receive it by the end of the week.
- Please do not forget that April 3<sup>rd</sup> from 2-3PM JPS will be hosting the RHP Plan Stakeholder Forum.
- The RHP plan will be posted online for public feedback. The date of this is TBD.

# WAIVER RENEWAL

---

## Waiver Renewal Category A

- Providers will submit a progress update to HHSC during the second reporting period of DY 7 for the Costs and Savings portion of Category A.
- Providers will not submit the actual template to HHSC on Costs and Savings until the second reporting period of DY8.
- HHSC is currently drafting guidance to have available by June-July 2018. HHSC will notify anchors and providers once this guidance is made available.

## Waiver Renewal Category B

- HHSC posted an updated Category B FAQ on the DSRIP Online Reporting System bulletin board.
- Anchors asked if providers should include Home Health in the system definition. Home Health can be included on the list of optional clinics. Providers can include home health in the system definition but it is not required.
- HHSC created a draft list of possible required and optional clinics, however, this list is not all inclusive. Providers would need to use their judgement if some areas are not reflected on this list or consult HHSC.

# Waiver Renewal Category B

- HHSC created a draft list of possible required and optional clinics, however, this list is not all inclusive. Providers would need to use their judgement if some areas are not reflected on this list or consult HHSC.

<i>Required Clinics, owned or operated by the provider have to be included if the provider has these clinics:</i>	<i>Optional - provider may choose to include those but not required</i>
Primary care clinics; Specialty care clinics; Outpatient cancer centers; Surgery centers; Dental; Outpatient therapy centers (physician or occupational therapy, speech) Other rehab centers, such as drug or alcohol rehabilitation centers; Cardiac catheterization centers; Gastrointestinal centers (may provide screening or other services such as colonoscopy and endoscopy); Chemotherapy and radiation therapy centers	Contracted primary or specialty care clinics; School-based clinics; Imaging and diagnostic centers (e.g. X-ray and ultrasound; labs and MRI); Dialysis centers; Diagnostic centers, such as labs and MRI scans; Labs; Wound care centers; Pain management centers; Cosmetic centers; Sleep Centers; Durable medical equipment rental facilities.

## Waiver Renewal Category C

- MSLC is finalizing the updated guidance on risk adjusting methodology. This information should be posted on the bulletin board in the online reporting system.
- HHSC released an updated Category C FAQ document last week.
- On March 28th The Texas Department of State Health Services (DSHS) is holding an informational webinar on the TexasAIM initiative to improve maternal mortality and morbidity outcomes. For DSRIP, this is related to measure **E2-A01**, the OB Hemorrhage Quality Improvement Collaborative Activity, for which HHSC is still developing milestone requirements. DSHS will be presenting a general overview of the TexasAIM initiative. HHSC has posted to the online reporting system bulletin board additional details for the collaborative activity that is a required activity if Measure Bundle E2 Maternal Safety is selected.

## Waiver Renewal Category C

- A goal calculator for DY7-8 has been posted to the online reporting system bulletin board. The goal calculator allows providers to calculate DY7 and DY8 achievement goals for the standard payer-type for P4P Category C measures. The goal calculator does not currently allow for goal calculation for grandfathered LHD measures.
- Updated Category C Specifications for all provider types have been posted to the online reporting system bulletin board. Most corrections are minor. Significant corrections (corrections that may impact a provider's understanding of measure specifications) are highlighted below, and all corrections are outlined in the change log of the Excel version of the specifications.

# Waiver Renewal Category C

- For the target populations for Measure Bundles A1, A2, C1, C2, C2, D1, D4, D5, and H1, HHSC added an "OR" after criteria f. to clarify that the target population for individuals with three ED visits is also an OR criteria.
- For measures C1-105, F1-105, K1-105, L1-105, and M1-105 Preventive Care & Screening: Tobacco Use: Screening & Cessation Intervention, HHSC Added Denominator Exceptions as specified in the measure source for the E.H.R. version of specifications to the "Denominator Exclusions" field. Denominator exclusions were previously listed as "none." Corrected specifications allow for denominator exceptions related to documentation of medical reason(s) for not screening for tobacco use (e.g., limited life expectancy, other medical reason) and are a part of the source measure specifications.

# Waiver Renewal Category C

- For Measure E1-232 Timeliness of Prenatal Care, HHSC removed references to Rate 2 and postnatal care in Measure Description and Numerator Description, and added numerator and denominator description in accordance with CMS Core Set of Measures and HEDIS 2017 Value Sets.
- For measures H2-160, L1-160, and M1-160 Follow-Up After Hospitalization for Mental Illness, the numerator inclusions and exclusions for Rate 2 were inverted. HHSC has clarified the numerator inclusion for Rate 2 is patients receiving follow-up within 7 days from discharge, and the exclusion (performance not met) is patients that did not receive follow-up within 7 days of discharge.

## Waiver Renewal Category D

- HHSC made a technical correction to the Measure Bundle Protocol related to Category D reporting for CMHCs. Updates allow Category D to incorporate potential changes to the measures reported by the Centers, since these measures are under internal and external review.
- HHSC is working on obtaining the data for Category D reporting.

# TECHNICAL UPDATES

---

# Compliance Monitoring

- MSLC is continuing its work with Category 1 and 2. Expected completion date for the review of most projects is May 2018.
- MSLC continues to work with providers on Category 3 Round 3 Performance Reviews. HHSC anticipates that Round 3 reviews will be completed by May 2018 for most projects.

# UPCOMING EVENTS

---

# Upcoming Events

- RHP 10 Stakeholder Forum
  - April 3<sup>rd</sup> from 2PM-3PM at JPS Health Network.
- DY 7 Joint Learning Collaborative Event
  - Scheduled for May 22<sup>nd</sup>& 23<sup>rd</sup> at the Hurst Conference Center. The second day will be a half day.

# CALENDAR OVERVIEW

---

March 28, 2018	DSHS informational webinar on the TexasAIM initiative to improve maternal mortality and morbidity outcomes
April 3, 2018	Stakeholder engagement meeting at JPS
Mid-April, 2018	Tentative date to submit RHP plan to HHSC
April 31, 2018	Anchors submit RHP Plan Updates
May 2018	MSLC Round 3 reviews to be completed
May 22 & 23, 2018	DY 7 Joint Learning Collaborative Event
June-July 2018	Guidance from HHSC on Category A Cost & Savings
